

Program for JSI Luncheon Lecture

12:30~13:30, Monday, December 5

J1 : JSI Luncheon Lecture 1 (Room B : Conference Room A1, Bldg. A at OCC)

Chairperson: Takaharu Okada (Laboratory for Tissue Dynamics, RIKEN IMS)

Using Imaging and Computational Biology to Develop a Deeper Understanding of Immune System Function

Ronald N. Germain (Laboratory of Systems Biology, National Institute of Allergy and Infectious Diseases, National Institutes of Health)

J2 : JSI Luncheon Lecture 2 (Room E : Conference Room B2, Bldg. B at OCC)

Chairperson: Koji Hase (Graduate School of Pharmaceutical Science, University of Keio)

Role of the Skin Microbiota in tissue Immunity

Yasmine Belkaid (National Institute of Health, NIAID)

12:30~13:30, Tuesday, December 6

J3 : JSI Luncheon Lecture 3 (Room F : Conference Room B3+B4, Bldg. B at OCC)

Chairperson: Tomohiro Kurosaki (Lymphocyte Differentiation, IFRc, Osaka University)

Diversification of antibody effector function

Jeffrey Ravetch (Laboratory of Molecular Genetics and Immunology, The Rockefeller University)
